The following will invalidate and nullify the fast

- Eating or drinking deliberately* or accidentally (whilst conscious of fast). This includes:
 - Swallowing toothpaste or mouthwash
 - Swallowing blood from the gums or toothpaste or mouthwash if they preponderate (dominate) over the saliva
 - Swallowing what is between the teeth if it is the size of a small chickpea or larger
 - Swallowing the saliva of one's spouse
 - Nasal spray if the medication passes the throat
 - Medicine inhalers such as Asthma Inhaler (There are two views in relation to this. The preferred opinion is that it nullifies the fast. One should therefore continue with the fast in Ramadan but make Qaḍā)
- Inhaling smoke deliberately; this includes smoking cigarettes
- Sexual intercourse deliberately*
- Ejaculation caused by physical stimulation deliberately or accidentally; this includes masturbation
- Vomiting a mouthful deliberately
- Returning a mouthful vomit down the throat deliberately
- Menstruation or post-natal bleeding
- Endoscopy (due to the lubricant)

* Eating, drinking and intercourse deliberately in Ramaḍān will also necessitate Kaffārah.
